INTEREST CENTERED ON SALONKI FRONT

(By Associated Press.) LONDON, August 24.—With no important changes in the main war theaters, interest remains centered on the new allied offensive on the Salonki front. The Bulgarians have advanced along the Struma valley and have entrenched themselves at various points. Berlin also reports further advances for them on the right wing, where they face the Serbians. Interest in the attitude of the Greeks has been heightened by dispatches telling of the determination of the Greek commander at Seres to resist the Bulgarians and of volunteers being organized for his assistance by the Venizelos leaders at Salonki. There has been no further development in the Rumanian situation. The last report from Berlin maintains that Rumania has not reached a decision.

On the western front the French apparently are marking time while the British push against Thiepval and Guillemont. London reports a fresh tightening of the ring around Thiepval in the capture of 200 yards of German trenches south of the town. Bitter fighting is going on in this

PLANS OF SUPER-ZEPPELINS IN HANDS OF THE BRITISH

(By Associated Press.) LONDON, August 24.—In a speech at Bury St. Edmunds last night, Baron Montagu, of Beaulieu, former vice chairman of the joint naval and military board, told of the new monster super-Zeppelins which Germany is building.

"We have obtained details of these super Zeppelins," said the baron. "The principal features of the craft are a capacity of 2,000,000 cubic feet, a length of 780 feet, a beam of 80 feet, a maximum speed of 80 miles an hour, a cruising speed of 35 miles an hour, and a radius of action of 3000 miles. The engines, six or seven of them, have a total of 15,000 horsepower.

"The airships can carry a load of bombs of five tons. They are able to ascend 17,000 feet. They are armed with machine guns at bow and stern and on top of the envelope. They carry a crew of 35.

"These particulars show how largely the Germans are relying on Zeppelins as a means for harassing us. Two of these new craft already have been completed and four will be available in October."
